NOTICE REGARDING TRAVEL VOUCHERS

Hereafter when an employee is away from his official station at the beginning of the month it will be absolutely necessary to indicate the date on which he arrived at that point. The mere statement "Away from official station close of -----," or "Was at ----- close of -----," or any such (Month.) (Place.) (Month.) vague statement is not acceptable.

If an employee remains at one point away from his official station during an entire month, in addition to the information required above, he shall indicate the probable additional time he will remain at that point.

Much difficulty is experienced on account of incorrect entry of various items in the "Subsistence" and "Other" columns on Forms 1012, 1012a, 1012b, and 1012c. Every item enumerated in paragraph 44 of the Government Travel Regulations is subsistence expense and must be entered in the "Subsistence" column. All other items are to be entered in the "Other" column.

Beginning with receipt of this notice, all travel vouchers not showing this information or vouchers containing items incorrectly entered will be returned for correction.

It is noted that some inspectors in charge regularly approve accounts in which are items that they know are not proper charges, or do not comply with the regulations, such as meals between 8 a. m. and 6 p. m., or items in excess of \$1 not supported by subvouchers, etc. When suspensions of this kind, or others made in the Washington office, pass the inspector in charge, concerning any employee's account, he should notify all employees on his force concerning the requirement so that repetitions may not follow.

Form 1012 should be approved in the space "Immediate supervising official," set off with heavy, black lines on the left margin of the face of the voucher.

Payee should not sign at the extreme bottom of Form 1012 in the space "Signature of payee." This is for signature only when payment is made in cash.
